

About the Service

Netbright's nbn™ Internet service is a residential grade Internet service, provided using nbn™ Fibre, Fixed Line and Fixed Wireless access connections.

This service is suitable for home or small office uses, where service performance and reliability requirements are not critical. The service does not support guarantees regarding service levels.

SERVICE AVAILABILITY

Availability of the service is dependent on the service location and available nbn™ access technology. The services and access technologies are shown in the table below.

Service	Speed (Mbps)	Availability by Access Technology				
		Fixed Wireless	FTTN	FTTC	FTTB	FTTP
Launchpad Pro	50/20		Yes	Yes	Yes	Yes
Launchpad Wireless	75/10	Yes				
Launchpad Premium	100/40		Yes	Yes	Yes	Yes
Wireless Turbo	200/8-20	Yes				
Wireless Stratos	400/10-40	Yes				
Ignite Turbo	250/25					Yes
Ignite Stratos	1000/50					Yes

When ordering a service, we will advise you of the available access technologies and service speeds. You can check service availability at <https://www.netbright.com.au>.

MINIMUM TERM

The nbn™ Internet service is available on a month-to-month basis, with a minimum term of one month. Services can be cancelled with 14 days' notice.

INCLUDED FEATURES

Netbright's nbn™ Internet provides a residential grade Internet access service with an unlimited data allowance.

EXCLUDED FEATURES

The nbn™ Internet service does not include an Internet router. A router can be supplied at additional cost on request.

Service Pricing

Monthly charges and minimum costs are shown below. Note additional extended minimum terms are available.

Service	Monthly Data	Activation Charge	Monthly Charge	Minimum Term	Minimum Cost

----------------	-----------	-----	-------	---------	-------

Netbright nbn™ Internet services are billed monthly on an anniversary basis. Your initial invoice will include any activation charges, plus the first month's service charges.

If your premise is in new development area and not already connected to the nbn™ a New Development Charge may also be applied by NBNC0 and included on your initial invoice.

Applications

This service is generally recommended for concurrent usage of 10 people, using email and web browsing, social media, online gaming or video streaming for up to ten devices.

NBN Services

NBNC0, as a wholesale provider of broadband services, delivers and maintains the customer access technology used by nbn™ Internet. The Service Speed refers to the maximum theoretical download and upload speeds that can be achieved via the selected access technology.

PERFORMANCE FACTORS

nbn™ Service Speeds can be affected by several factors, as outlined in the table below.

Fixed Wireless Services	FTTN & FTTB Services
<ul style="list-style-type: none"> Distance of the customer premise to the fixed wireless tower. Obstructions that exist between the customer's antenna and the fixed wireless tower. Weather conditions such as extreme heat, rain or fog. 	<ul style="list-style-type: none"> Distance of the customer premise from the FTTN or FTTB node. Quality of the copper pair connecting to the FTTN or FTTB node. Internal wiring within the customer premise.

Netbright will not activate services on a nbn™ wholesale speed tier above those that NBNC0 indicates can be achieved over the customer's connection.

Service performance can also be affected by factors such as your Internet router configuration and performance, the in-premise wireless (Wi-Fi) signal strength, the type of content being accessed, content provider's networks and systems, and upstream Internet network congestion.

Netbright will also provide the option for customers to access alternative network solutions, or to migrate to another service provider without penalty if the services is unable to achieve expected speeds.

SERVICE CONTENTION

In addition to the factors above, network contention or congestion in the Netbright network, or in third-party providers' networks may impact the Service Speeds achieved.

Other Information

CUSTOMER SERVICE

You can contact our Service Desk on 1300 358 368 or by emailing support@netbright.com.au. Service Desk operating hours and service status updates can be found at www.netbright.com.au/support.
